<b>Reorder Number</b>	98925
<b>Pack Size</b>	25 pk Spindle
<b>Capacity/Speed</b>	50GB/6X
<b>Brand</b>	Verbatim
<b>Surface</b>	White Inkjet Printable, Hub Printable

Verbatim M DISC™ optical media is the new standard for digital archival storage. Unlike traditional optical media, which utilize dyes that can break down over time, data stored on an M DISC is engraved on a patented inorganic write layer – it will not fade or deteriorate. This unique engraving process renders these archival grade discs practically impervious to environmental exposure, including light, temperature and humidity.

ISO/IEC 16963 standard longevity tests have proven the durability of M DISC technology, and it withstood rigorous testing by the US Department of Defense. Based on ISO/IEC 16963 testing, M DISC media has a projected lifetime of several hundred years.

Designed for widely distributed large data such as scientific images, video, and other commercial application object data, Verbatim M DISC BD-R DL media have a storage capacity of 50GB – allowing you to use fewer discs while archiving your files.

The Verbatim M DISC 6X BD-R DL is inkjet and hub printable, allowing you to create custom disc surfaces and artwork for your discs. Compatible with the latest inkjet disc printers, the printable surface offers full-surface, edge-to-edge printing and rapid-dry ink absorption for clear text and photo-quality images.

- Projected lifetime of several hundred years (based on ISO/IEC 16963 testing)
- Stored data is engraved – ultimate archival solution
- Impervious to environmental exposure, including light, temperature and humidity
- Withstood rigorous testing for durability by US Department of Defense
- 50GB storage capacity
- Create custom disc surface artwork using your inkjet disc printer
- Rapid-dry ink absorption for clear text and high quality images
- 10-Year Limited Warranty
