MagStor®

DATA SHEET

M1000 1U 8-SLOT TAPE LIBRARY

FEATURES AND BENEFITS

FAST PERFORMANCE

Up to 750 MB/sec (2.7 TB/hr)*

*2.5:1 compression LTO-9, LTO-8, and LTO-7 Half-Height drives only

MADE IN THE USA

TAA COMPLIANT, our products are Made in the USA and feature IBM™ LTO drives made in Japan for TAA compliance required by public agencies

COMPLIANCE AND SECURITY

Secure your backups with AES 256-bit hardware-based encryption standard and WORM (Write-once-ready-many) support with WORM enabled cartridges

COMPLETE SOLUTION WITH NANOPURE MEDIA™

Full support for NanoPure Media™ which is the only certified and fully tested media system for managing media errors and drive hardware faults on MagStor® libraries

ABOUT MAGSTOR®

MagStor® Is a recognized leader in tape backup solutions to enterprise and M&E users globally. Since 2006, operating as our parent company Magnext, we are the ONLY tape hardware manufacturer and service provider solely focused on the needs of the tape hardware market. Our investments in engineering include our innovative NanoPure Media™ system and patented Thunderbolt 3™ equipped tape drives and libraries. All with a focus on improving the usability of tape hardware for today's M&E and Enterprise users.

MagStor® supports your unique workflow requirements

MagStor® understands the unique requirements of content producers and seamlessly works with industry leading partners in media and entertainment to deliver workflow solutions that protect your content in the most reliable way possible. Our support for industry standard requirements like LTFS, Thunderbolt 3™, Remote Management, and NanoPure Media™ means the MagStor® M2000 Tape library will provide many years of service providing protection to your most valued assets.

Secure storage for your digital assets

MagStor® Tape Libraries are the perfect solution to address all the retention, protection, and compliance requirements of small to medium businesses and content creators who also wish to protect their data from Ransomware. MagStor® Tape Libraries provide air-gapped protection against ransomware.

SAS, FIBER, or Thunderbolt 3™, more interface options than competitors

Choose the performance and flexibility of Fiber Channel LTO, or the simplicity of SAS. Or step up to Thunderbolt 3™ with our optional bridge device to connect directly to your TB3 enabled hardware.

Industry leading warranty and lifetime support policy

We care about your success. Our 3-year standard warranty leads the industry, along with our lifetime support. You can call, email, or chat with us on our website at any point after your purchase. Every future MagStor® firmware update is free for original MagStor® customers. You may also elect to extend the 3-year warranty up to 5 years for an additional fee.

Lowest cost long term storage

Best price per terabyte of any leading tape library system. And reliable for the long term. While the shelf life for HDD is a modest 5 years, users can rely on LTO's longevity thanks to its 30-year shelf life.

Built to work simply

Standardized driver support means your MagStor® library will be compatible with your backup or archiving software. NO LICENSING, No hidden costs or fees. All slots in your device will be unlocked from the moment of purchase. device will be unlocked from the moment of purchase.
