NX-F2SE Series

512GB / 256GB / 128GB

COMFORTABLE UHS-II IN ALL SITUATIONS

NX-F2SE Series is a standard edition that offers the comfort that only UHS-II can provide for shooting 4K video^{*3}, comfortable high-speed continuous shooting, high-speed data capture to PC, and more. Available in capacities up to 512 GB, so you can concentrate on shooting without worrying about the remaining capacity.

IDEAL FOR 4K RECORDING^{*3}

Providing stable performance during 4K high-quality video recording and continuous shooting of still images.

STREAMLINE YOUR WORKFLOW

With high readout performance of up to 280 MB/s,^{*1} you can import photos and videos to PCs and other devices in a short time, and post-shooting tasks such as checking, editing, and sharing data can also be done smoothly.

^{*3} The specifications required for 4K video recording may vary depending on the device. Be sure to check your host device spec before use.

NX-F2PRO / NX-F2SE Series Durability

Waterproof Dust proof	IP57 compliant	X-ray resistance	ISO7816-1 compliant
Shock resistance	Drop tested height from 4.9 ft Bending tested 10 N	UV resistance	ISO7816-1 compliant
Temperature resistance	-25°C~85°C (Non-condensing)	Electrostatic resistance	IEC61000-4-2 compliant
