MODEL NUMBER: **P500-100**

Extend the high-resolution connection between your VGA-enabled computer and monitor up to 100 ft. with no ghosting. Recommended for easy access to VGA ports that are hidden or hard to reach.

### Description

The P500-100 VGA Coax High-Resolution Monitor Extension Cable (M/F) extends the connection between your VGA-enabled computer and monitor up to 100-ft. (30.5 m). It's recommended for easier access to VGA ports that are hidden under a desk or inside a cabinet or otherwise difficult to reach. Constructed from mini-coax (RGB) and paired video wire, it supports video resolutions up to 2048 x 1536, including 1080p, with no ghosting. Foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Molded gold-plated HD15 connectors with gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
