

Tripp Lite UPS Battery Backup for Security Systems

Keep surveillance cameras, network video recorders (NVRs) and digital video recorders (DVRs) powered and protected.

THE TRIPP LITE ADVANTAGE:

- ✓ More features for less money than competitors!
- ✓ A wide selection of UPS systems to fit your needs and budget
- ✓ We can configure UPS systems to match any battery backup runtime requirement
- ✓ Our UPS systems are always in-stock and ready to ship!

GOOD	BETTER	BEST
 <p>Basic battery output protects against blackouts, brownouts, overvoltages and power surges.</p>	 <p>Sine-wave battery output offers network-grade power protection. Includes auto voltage regulation to correct brownouts and overvoltages.</p>	 <p>On-line, double conversion maintains perfectly regulated sine wave AC and DC output for the highest performance power protection.</p>

See reverse to view Tripp Lite UPS options in various IP/analog video setups

IP: 16 & 32-Channel Typical IP Video Setup—800W
